ABOUT US

BC Care Providers Association (BCCPA) has represented non-government care providers since 1977. Along with **EngAge BC**, we work with over 430 long-term care, home health care, assisted living, independent living, commercial and associate members across the province, and growing.

Established in 2019 as an operating arm of BCCPA, EngAge BC has a mandate to support the distinct needs of private pay operators, including those offering home health and independent living services.

Through our advocacy, research, programs and events, we support our members to provide safe, high quality of life to those accessing seniors' living, care, and support services across B.C.

ADVOCACY

SECTOR ADVOCACY

Ensuring our members' collective voice is heard and recognized by B.C. and Canada's top political decision-makers and policy influencers is a key pillar of the work BCCPA and EngAge BC does as the leading voice representing B.C.'s seniors' living and care sector.

With years of experience in public affairs, our experts on staff are here to support members facing challenging situations, when they arise. As the largest association representing B.C.'s seniors' living and care operators, we are understood to be the industry voice with media across the province.

Through media releases, op-eds, twice-monthly newsletters and more, we regularly communicate our members' priorities to the public.

THE LEADING VOICE

YOUR VOICE IN GOVERNMENT DECISIONS

BCCPA & EngAge BC ensure your most pressing issues are front-and-centre with government both provincially and federally. We meet regularly with Ministry of Health officials, MLAs and MPs from all parties, in addition to health authority representatives. We also submit a budget submission to the Minister of Finance on behalf of our members each year.

HEALTH HUMAN RESOURCES

SUPPORTING A DIVERSE WORKFORCE

A major area of BCCPA & EngAge BC's advocacy efforts have focused on supporting and strengthening B.C.'s continuing care workforce. We lead various initiatives such as including managing public funding for vocational training, working with industry leaders such as SafeCare BC, and ensuring B.C.'s HHR crisis is on the agenda of key political decision-makers.

SAFECARE BC

SafeCare BC is an industry funded, non-profit health and safety association established in 2013 through the support of BCCPA and other stakeholders. Offering evidence-based education, advocacy for safer workplaces, leadership and collaboration, SafeCare BC strives to support injury-free, safe working conditions for continuing care workers in B.C. and be the industry leader in empowering those connected to B.C.'s continuing care sector to create a culture of safety.

BCCPA & EngAge BC provide regular member progress reports and invite feedback on emerging issues through various forums including our annual member survey, regional member-led working groups and home health roundtable sessions. Through these opportunities, we promote the exchange of information and ideas, address common issues and generate solutions to improve the effectiveness of service delivery.

We also host several member-led **councils and committees** to guide strategic organizational decision-making, including our Health & Human Resources (HHR) Committee, Events & Recognition Committee (ERC) and Member Services & Engagement Committee (MSEC). EngAge BC also leads its own Member Council and Home Health Committee.

PROGRAMS

PROGRAMS

BCCPA & EngAge BC offer a suite of diverse program offerings designed to support the leading priorities and interests of B.C.'s seniors' living and care sector.

From vocational training programs, administering funding for seniors' safety and quality of life, marketing initiatives, and enhancing public awareness on seniors' living and wellness options, our programs reflect the areas that matter most to B.C.'s seniors' living and care operators.

Read on for an overview of BCCPA & EngAge BC's current program offerings.

EquipCare BC

Since 2017, BCCPA's **EquipCare BC** program (formerly the Seniors Safety & Quality Improvement Program) has allocated \$28 million to vital safety, quality and infection prevention and control items to support publicly funded long-term care and assisted living operators across B.C.

Examples of funded items are beds and mattresses, overbed tables, shower chairs and tubs, mobility equipment, medical screening and respiratory devices, lighting and visual aids, temperature control, exercise equipment, sensory rooms, music therapy, ergonomic furniture and more to improve the safety and quality of life for thousands of seniors.

BCCPA was awarded the funding by B.C. Ministry of Health to develop and manage the province-wide program.

HCA TRAINING PROGRAM

With funding provided by the Ministry of Advanced Education & Skills Training, BCCPA partners with B.C.'s leading educational providers to provide free training by way of the provincially approved curriculum for HCAs. Hundreds have already graduated from our **HCA Training Program** and started their new health care careers, many becoming employed at BCCPA member organizations.

TRA TRAINING PROGRAM

The **TRA Training Program** is BCCPA's newest vocational training program, providing fully funded training by way of an industry recognized curriculum for TRAs. Launched in spring 2022, the opportunity is made possible with funding from the Ministry of Advanced Education & Skills Training.

SYMPHONY FOR SENIORS

In partnership with Health Arts Society, we offer **Symphony for Seniors**, a virtual professional music program benefiting seniors' living and care communities across B.C. Funded in part by the Government of Canada's *New Horizons for Seniors Program*, the program helps reduce feelings of isolation, refines quality of life, and aims to improve seniors' mental health.

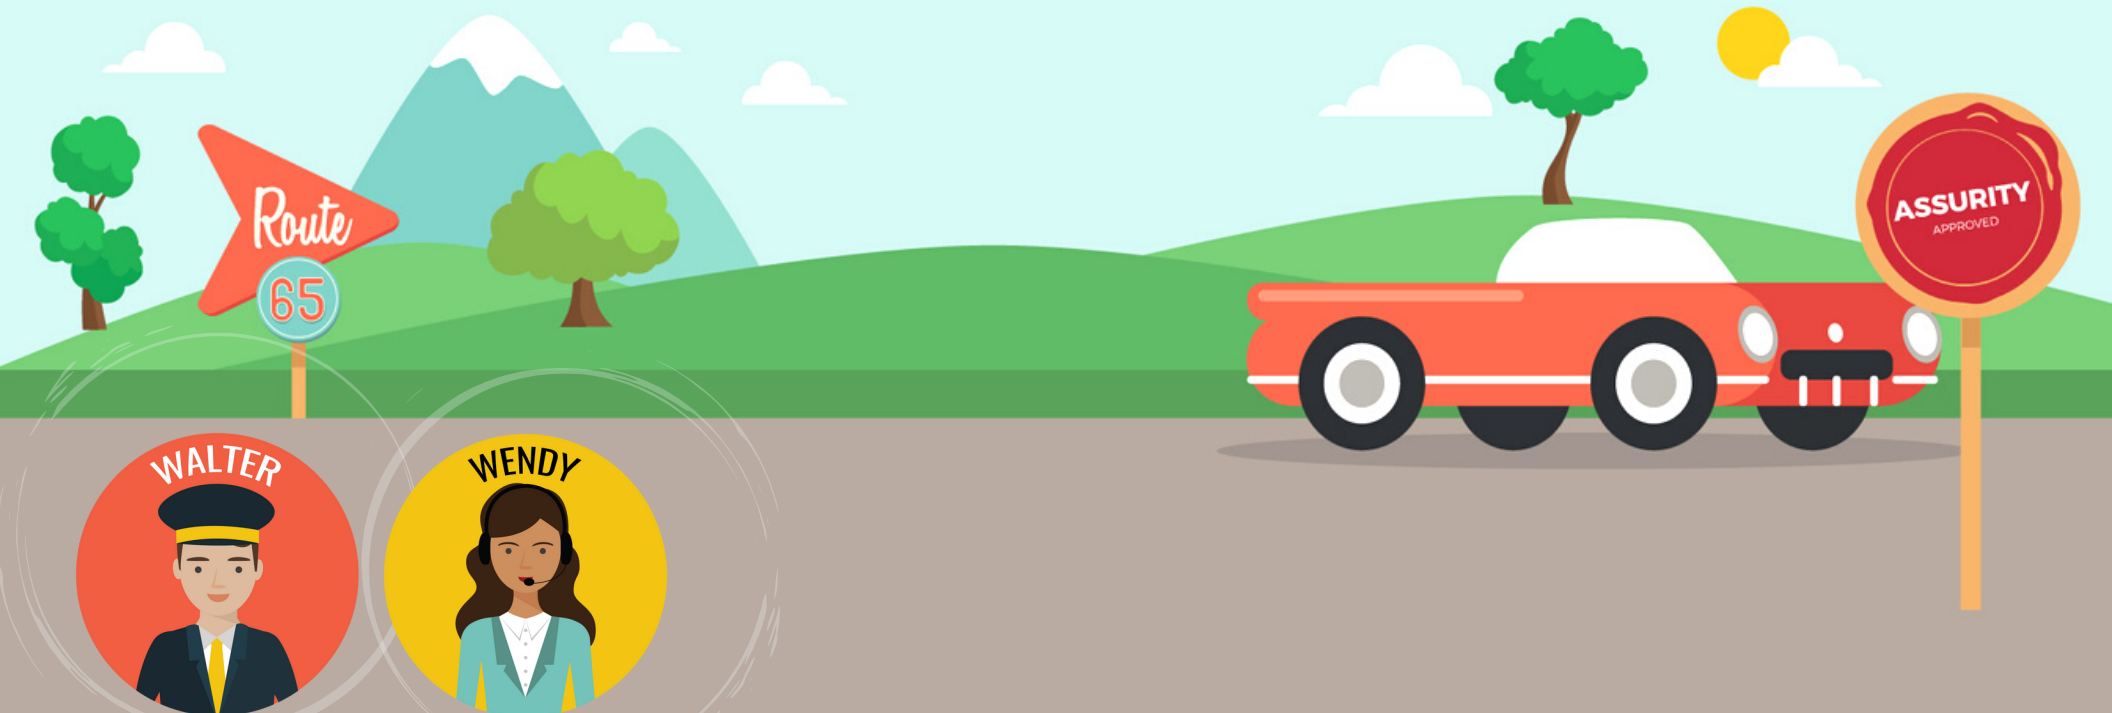

ENERGY SAVINGS PROGRAM

Our **Energy Savings Program** helps find ways to lower energy costs through targeted retrofits of mechanical and electrical systems. We can analyze your historical building consumption data, complete a walk-through energy audit, and come up with a plan to help achieve your savings goals. We also maximize all utility and government incentives to help reduce up-front capital costs.

ASSURITY: THE MARK OF QUALITY

Our **Assurity** certification program makes it easier for seniors and their families to choose a quality home health or independent living operator. Developed in consultation with industry leaders, seniors and their family members, the Assurity mark of quality indicates that an organization meets or exceeds industry standards in the areas that matter most to seniors and their family members. The sector's new marker of quality is integrated into EngAge BC's flagship program, Route 65, to maximize program reach and public awareness.

HOME AND INDEPENDENT LIVING (HAIL) PROGRAM

New workers are urgently needed to help B.C. face the shortage of skilled workers in independent living and home health. With support from the Ministry of Advanced Education and Skills Training, EngAge BC operates the **Home and Independent Living (HAIL) Training Program** – an initiative providing free training to those seeking rewarding new careers as non-medical home health companions or hospitality workers in independent living. Members have the ability to participate as employer partners and hire program graduates as a result.
