# IIHAR Tools & Recommended Actions

The Inter- and Intra- Health Authority Relocation (IIHAR) toolkit provides tools and resources to facilitate patient relocation during emergencies, covering all stages from preparation to repatriation.

Within the toolkit you can find resources for each state of an evacuation, from activation, coordination, transportation, to reception and repatriation.

Note that this list of resources is not exhaustive.

ACTIVATION	EVACUATION COORDINATION AND PREPARATION	TRANSPORTATION	RECEPTION PREPARATION	REPATRIATION
Decision-making Framework	Evacuation & Evacuee Process Flows	Considerations for transportation	Considerations for Staffing	Same tools available.
	Preparation for Relocation Checklist	Considerations for transportation: staffing	Receiving Site Preparation	
	Sending Site List	Loading/Uploading Checklist	Psychological Resources	
Evacuation Decision Support Tool	Resident Identification Info (including ID bracelets and equipment labels)	During Transport Checklist	Job Action Sheet	

Access the Toolkit
Find the toolkit on HEM-BC's website > IIHAR (bottom of the page)
