

Chief Executive Officer

New Vista Society

Burnaby, BC

Bring Vision, Leadership and Commitment to Excellence

Lead a Major Senior Care and Housing Organization through Growth

New Vista Society with over 236 senior care beds and 534 residential units for seniors and low income families is both a major employer and asset manager in the city of Burnaby. The Society takes pride in providing professional care and support services for residents in a home-like environment, including the provision of programming and activities to combat helplessness, loneliness and boredom and support strong health outcomes.

As an organization that is looking to the future, the Board is currently in the middle stages of a \$20 million care home redevelopment project in partnership with Fraser Health. The vision is for a 40,000 square foot facility located on the existing campus. The new facility will provide tremendous opportunities for improved care for more vulnerable and frail seniors.

With a tremendous asset base, a case for fundraising, a commitment to quality care and program innovation the organization is ready for a strong leader who has the ability to inspire a team and put in place a plan that takes this organization to the next level of excellence. Building a strategy that ensures the organization capitalizes on its asset base, builds strong proactive partnerships and evaluates the opportunities to introduce new services and programs through partnerships with the business community will be critical. Important to the Board is its commitment to working with the Union, as contracting out any services is against the charter of the organization.

The ideal candidate is a strategic, forward thinking executive who is passionate about senior care and has a strong background in leading an organization where the preservation of real estate assets, the development and delivery of social services and the building of a strong leadership team have been critical to the success of the organization and the operation. As a leader, the candidate is a relationship builder who can achieve support and buy-in on the valuable work of the organization. With a proven track record of delivering strategic operational and financial objectives, he/she will bring a tremendous contribution to the long-term success of the Society.
